Your next job:

Testing Technician

What awaits you as a final inspection test technician (m/f/d) at Hofmann Measurement and Balancing Technology?

The test technician (m/f/d) carries out the final inspection of balancing machines in the production area. In this role, you will independently calibrate and balance systems, work closely with the engineering team to prepare machines for customer acceptance, and support internal customer acceptances and training. Occasional commissioning at customer sites may be required. In addition, the position may require overtime.

Framework conditions

- On-site activity in the production area to support final inspections and customer acceptances
- Occasional travel may be required under certain circumstances for customer implementations.
- Overtime may be required depending on production schedules and customer deadlines

Your tasks

- Troubleshooting and repair of mechanical, electrical, and electronic assemblies
- Calibration, inspection, and repair of balancing machines and balancing equipment, as well as documentation of results and initiated corrective actions.
- Identify issues and coordinate closely with the engineering team to resolve errors and deviations before customer acceptance.
- Creation of test data according to the requirements of American Hofmann Corporation (AHC) and/or customer acceptance specifications
- Support for internal customer acceptances and conducting customer training as needed

Your qualifications

- Completed training or a degree in a relevant technical field, or equivalent practical professional experience

Your skills

- Strong mathematical and mechanical understanding
- Ability to troubleshoot, analyze, and perform tests on electromechanical systems
- Basic practical knowledge of handling PLC control systems
- Knowledge of pneumatic and hydraulic systems
- Secure use of computer systems and standard software, especially Windows, Excel spreadsheets and comparable applications
- Excellent interpersonal communication and teamwork skills for effective collaboration with colleagues and clients.
- Ability to work efficiently even under time pressure and reliably meet customer appointments and project deadlines

Your benefits

- Varied, challenging, and interesting work
- Room for personal initiative, creativity, and innovative solutions
- Good development opportunities and performance-oriented compensation in a pleasant working environment with flexible working hours
- Individual support through further training measures
- 401(k) retirement plan with employer match
- Health, Dental, and Vision Insurance
- Health Savings Account (HSA) with Employer Contribution
- Flexible Spending Account (FSA)
- Life insurance
- Paid Time Off
